

# Schaumburg High School

## Class of 2026

# ELECTIVE COURSE REQUESTS

## INCOMING FRESHMAN ELECTIVE COURSE REQUESTS ARE DUE BY WEDNESDAY, DECEMBER 15.

All freshmen will have a daily class schedule that includes English, math, science, wellness class, study hall, and two elective courses.\*

We encourage parents to review the available elective course choices listed on the back of this sheet and request elective courses that align with their child's academic readiness, personal interests, and future goals.

## FACTORS TO CONSIDER WHEN CHOOSING ELECTIVE COURSES

### Course Content

The District 211 Curriculum Guide is available online at <https://adc.d211.org/curriculum-guide> and contains descriptions of every course available to students.

Contact the department chair if you have questions about a specific course beyond the description in the Curriculum Guide. Email addresses are listed on the back cover of your Incoming Freshman Transition Guide.

### Prerequisites and Placement Exam Results

Some elective courses require concurrent placement into specific core academic courses.

Placement exam results will be provided in early December and can help guide decisions about reading-intensive elective courses and courses that require enhanced math skills.

**Reference the grid on the back of this sheet to see all prerequisites that apply to specific elective course choices.**

### Career Cluster Matches

In November, students will complete the Career Matchmaker Survey in Xello. Survey results include Career Cluster matches reflecting your child's individual areas of interest.

Reference the grid on the back of this sheet to see the Career Clusters associated with specific elective courses.

See your Incoming Freshmen Transition Guide for information about Xello.

## How Do I Submit Elective Course Requests?

Parents must log on to the **D211 Infinite Campus Parent Portal** to request elective courses. Once logged on, click **more** and then click the **D211 Elective Course Selection** link under Quick Links.

Indicate your child's two elective course requests plus one alternate course\*\*. Alternate courses will be used if schedule conflicts prevent another course request from being honored or if elective course prerequisites have not been met. **All requests are due by Wednesday, December 15.**

Contact the Student Services office, at 847-755-4626 if you have questions about requesting elective courses.

\*Select students will have the option to take a third elective course in lieu of the required freshman study lab. Eligible students will be notified of this option in late January as part of their placement notification letter.
