

CONANT MEDIA CENTER NEWSLETTER

Happy New Year 2024!

We wish you all good luck in the second semester!

Around the library...

Stop by the library to see our displays this month. For those of you in love with the mysteries, the Media Center built a great collection of Agatha Christie's novels to highlight our mystery section.

For anyone interested in reading, who may be unsure where to start and what to read, our library displays are a good place to find recommendation.

How will you be using the Library?

QUIET ZONE

Whisper conversation only
Quiet group or individual work
Earbud or headphone use allowed
No food

SILENT ZONE

No talking
Individual study
Earbud or headphone use allowed
No food

The Media Center is a designated peaceful and quiet environment that is meant for reading and studying. To ensure a calm space, there are some minor changes in the media center this semester. Instead of the previous three zones, there are now only two:
YELLOW – quiet study
RED – silent study

These changes will provide the perfect atmosphere for you to engage with books, research, and any other form of studying.

UPCOMING EVENTS:

2/7 - VALENTINE'S MOVIE NIGHT
2/12 - BOOK CLUB MEETING

As many of you may have already noticed, we have many great new staff members throughout the library.

Ms. Haske joined our team last year. Mrs. Krydka and Mrs. Lee started this school year. Don't be shy to show them some kindness by stopping by and welcoming them to Conant. Wish them all the best!

Please don't forget our next Book Club Meeting on Monday, Jan 22th, after school in the library to discuss the book:
"Give Me A Sign".
Hope to see you there!

DID YOU KNOW...

Bats Can Work At The Library.

Not every library is eager to employ bats, but in Portugal, the Rococo Library in Mafra National Palace is just one place that still welcomes them with open arms. Don't worry – they're asleep and away from patrons during the day. But at night, they work hard to eliminate bugs that could damage books.

Library stats:
Checked Out: 447
Overdue: 343
