If you think your child has suffered a concussion

Any athlete even suspected of suffering a concussion should be removed from the game or practice immediately. No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without medical clearance. Close observation of the athlete should continue for several hours. IHSA Policy requires athletes to provide their school with written clearance from either a physician licensed to practice medicine in all its branches or a certified athletic trainer working in conjunction with a physician licensed to practice medicine in all its branches prior to returning to play or practice following a concussion or after being removed from an interscholastic contest due to a possible head injury or concussion and not cleared to return to that same contest. In accordance with state law, all IHSA member schools are required to follow this policy.

You should also inform your child's coach if you think that your child may have a concussion. Remember it's better to miss one game than miss the whole season. And when in doubt, the athlete sits out.

For current and up-to-date information on concussions, please reference the following link: [Head Injury Care](#).

☐ I acknowledge that I have been provided information regarding concussions, and it is with my full knowledge and consent that my son/daughter participate in interscholastic competition at District 211 subject to the conditions stated above regarding concussions.

ACADEMIC ELIGIBILITY POLICY

To be eligible for participation in interscholastic athletics and/or activity contests, a student must adhere to both the IHSA and District 211 academic requirements outlined below:

The IHSA requires that all students must be passing five (5) academic courses on a weekly basis. Physical Education may be included as one of the five (5) courses. Any student who is not passing five (5) academic courses will be ineligible for the following week of competition.

District 211 requires that students must maintain a 2.0 GPA (excluding Physical/Driver Education) and receive passing grades on a 6 week, 12 week, and semester basis. Students who do not meet this requirement will be placed on probation, and will be required to attend academic interventions.

☐ I have read the above Academic Eligibility Policy for District 211 and agree to help my son/daughter live up to these standards.
