Dear Parent:

Welcome to Fremd High School. New students are provided with an iPad as part of our school’s One-to-One learning model. All incoming Fremd High School students whose address has been verified by the Student Services department are invited to pick up their iPad next week.

Summer school students will have all instruction delivered online, and teachers have prepared lessons that take advantage of the iPad’s features and functions. You can find more details about District 211’s [One-to-One program](#) and the [Technology Acceptable Use Policy](#) on the District 211 website.

You are invited to sign up online to come to Fremd High School on May 27 and May 28 to pick up your child’s iPad. On each of these days from 9:00 a.m. to 2:00 p.m., staff members will be available to distribute devices using a contactless drive-up distribution system. Information regarding the online sign up will be posted on the Fremd High School Website (fhs.d211.org).

You may be familiar with Illinois’ graduated driver license program that imposes controls on new drivers and gradually loosens those controls over time. This approach has helped teenage drivers develop safe habits on the road. Our school has implemented a comparable approach regarding the school-assigned iPad.

Specifically, your child’s school-assigned iPad has been configured to support educational goals. Students are not able to access the Apple App Store and are not able to download apps on their own. Rather, a predetermined set of apps have been made available in our school’s Self-Service catalog. Additional course-specific apps will be made available through Self-Service in the future as requested by individual classroom teachers.

In order to reduce distractions from learning, games, social media, and other tempting online interferences have been removed from your child’s iPad. Our goal is to prepare students for independent use of a web-connected device as they progress through high school and on-going support will be provided as students learn more about best practices in an online world. Additional information about specific supports will be shared with you as the school year begins in August.

We strongly encourage you to purchase the available iPad Protection Plan for your student’s iPad. Information about the [optional protection plan](#) is available on the District 211 website. The annual \$25 premium provides helpful coverage in the event the iPad is damaged, lost, or stolen. Premium payments can be made online using the *MySchoolBucks*

app. See our District website for details about establishing your [free MySchoolBucks account](#) which will be used for all school-related financial transactions.

If you have questions concerning the District’s One-to-One program or how to sign up to pick up your child’s iPad, please check the school website at fhs.d211.org or contact our school’s Technology Department by telephone at 847-755-2761.

We look forward to a successful four-year high school experience.

Sincerely,

Kurt Tenopir
Principal

Keith Sorensen
Technology Department Chair

You received this electronic communication because you provided your email address to High School District 211. Changes or updates to your email address can be made using [Infinite Campus](#). If you have questions regarding any of the information contained within this email, please call the high school for assistance with your concern.
