

Dear Parents and Guardians:

Annually, in accordance with the School Safety Act and the Illinois School Code, all District 211 schools must complete safety drills that serve an educational purpose.

Working closely with our local law enforcement partners, each school will be conducting safety drills to provide the opportunity for students and staff to practice established procedures and the opportunity for police and school administration to assess responses to potential threats to safety.

Safety within our school communities continues to be of utmost importance and we are committed to continually improving our practices and preparedness.

Parents or guardians who have concerns or questions about the drills or their student's participation should contact the Assistant Principal for Buildings and Grounds at their home school (list below).
