Dear Student:

Higgins Education Center will administer the SAT to seniors starting October 15th. Here are details you need to be aware of prior to coming to school to complete the exam:

1. Starting October 14, you will begin receiving an email each morning on your school-assigned email account from *District 211 <noreply@qualtrics-survey.com>*. The email will include an individualized link to the [District 211 at-home Daily Wellness Screening Survey](#). The link is specific to you, cannot be shared with others, and provides one-time access to the screening survey.

Prior to leaving your home, you must complete the screening survey each day you intend to physically come to school.

Answer each screening question honestly to reflect your current health status. You will receive an immediate response indicating whether or not you are approved to come to school. If approved to go to school, you must show the response screen with a green checkmark, either on your school-issued iPad or a personal mobile device, to gain entrance to the building.

For the health and well-being of all people in our school, ***do not come to school if you are ill***. If you are not approved to come to school as a result of the Daily Wellness Screening Survey, a representative from the school will contact your parent to follow up and learn more about the reason you were not cleared to come to school. The follow up will occur later in the day.

Students who come to school without having passed the Daily Wellness Screening Survey will not be able to enter the school.

2. You must wear an appropriate face mask at all times when at school or when using school transportation services. Your face mask must completely cover your mouth and nose while fitting snugly against the sides of your face. ***Bandanas, neck gaiters, and face masks with exhalation valves or vents are not acceptable alternatives to a face mask.***
3. You must enter the school using the main entrance. Your body temperature will be checked as you enter the school. ***If you do not pass the wellness screening survey, have a body temperature above the maximum threshold, or cannot adhere to the school's established safety protocols,***

you will be sent home. Click [here](#) for more information about school safety protocols

4. While at school, ***all people must maintain at least six feet of distance from others.*** Signs have been posted in some hallways and stairways to indicate one-way walking patterns to support people's safe movement.

We look forward to you coming to school for the SAT as it represents your continued progress toward graduation in May.

Sincerely,

Jessica Orstead
Program Administrator
